

Precision Frameworks[®]

Framed Mirror Solutions

Builder
Specific
Programs
and
Sales Tools

Precision Frameworks can help to create a simple, limited-option builder program by creating custom builder sell sheets (complete with the builders logo), matching custom display boards and for Model Homes or Design Centers we can provide the complete frame/framed mirror product at no cost or highly discounted rates. By limiting the options and arranging by price point, this allows for a simple, easy to follow program.

Framed mirrors are becoming a more standard offering throughout the single family market and, with the assistance of Precision Frameworks providing the above materials, this will create a simple, efficient program that is easy to follow for all parties involved.
